

Always to hand

With the Sanitas insurance card, you'll always be well prepared at the doctor's, in hospital, in an emergency abroad or when you need medical advice on the phone. Please note that how and where you can use your insurance card depends on your chosen insurance cover. To be on the safe side, you should carry it with you at all times.

Medical hotline: You can call this number around the clock, 365 days a year if you need medical advice in Switzerland.

Service centre: Your contact for administrative queries and information.

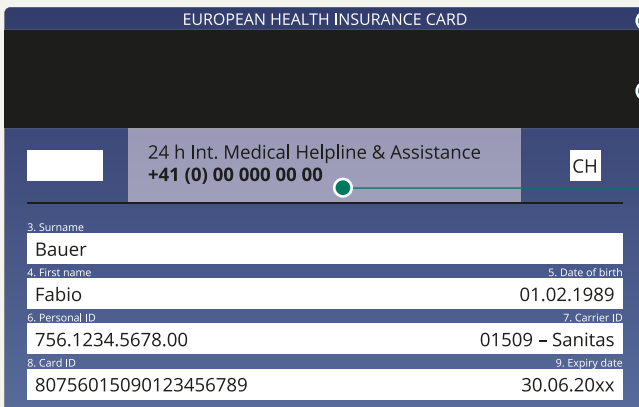

Chip: This chip contains all your administrative personal details in electronic form that must be printed on your insurance card in accordance with the provisions of the Federal Office of Public Health (FOPH), including first name, surname, card number, date of birth, sex, AHV no., expiry date. Upon request, the chip can also be used to store other medical data from authorised healthcare providers (e.g. doctors).

Personal details: The Sanitas insurance card is your personal customer card.

Proof of insurance in Europe: For a temporary stay in a member state of the European Union or an EFTA state, your card acts as proof of insurance for medical treatment in emergencies.

Magnetic strip: Only your personal ID is stored here. It is used primarily for buying medicines at the chemist.

Assistance: This number is a 24-hour helpline for emergencies (illness and accident) abroad – but only when you have the appropriate insurance.
