

List of inpatient maternity facilities

As at 01.01.2023

The following overview is a **positive list**. This means that all the maternity facilities recognised by Sanitas are included in the list (this also applies to Hospital Extra Liberty and Hospital Top Liberty, although these supplementary terms refer to a negative list).

Benefits are covered as described in the supplementary terms of the relevant hospital insurance plans.

This overview lists only maternity facilities. Any hospital lists specified in the supplementary terms (acute hospitals) are available separately.

Please file this list of hospitals with your insurance documents. Before the birth, check again whether the maternity facility you've selected is recognised as a maternity facility in accordance with the supplementary terms.
