

Basic insurance

# Basic

Your health is important to us.

Three good reasons for choosing Basic

Free choice of doctors  
for outpatient treatment

Medgate – fast  
medical advice  
around the clock  
by phone or via the Sanitas  
Medgate app.

With the Sanitas customer  
portal, you can manage  
your insurance affairs with  
just a few clicks of the  
mouse.

**sanitas**

People living in Switzerland are legally obliged to take out basic health insurance. Sanitas offers you a selection of basic health insurance models with a choice of what share of the costs you pay.

**Your mandatory health insurance covers the basic costs of treatment in the event of illness, accident and maternity. The Basic plan gives you a free choice of care providers.**

#### **Insured benefits**

- Outpatient medical treatment
- Hospital treatment in the general ward in your canton of residence
- Emergency treatment worldwide
- Drugs, laboratory tests and medical aids

#### **How to save money**

- Choose an alternative insurance model to lower your premium.
- Choose a higher annual deductible for an attractive discount on your premium.
- Exclude accident cover: if you work at least eight hours a week for any given employer, you're covered by statutory accident insurance (UVG/LAA) and don't need to arrange private accident insurance.
- Buy generics: under the law, single source (original) drugs are subject to a cost share of 20%. To reduce the cost share to only 10%, choose an equivalent generic of the same quality instead.

#### **Discounts**

- Discounts for children: attractive discounts on the adult premium for basic insurance from the first child insured.
