

Supplementary insurance

Dental Basic and Dental

For a bright smile

Good reasons for choosing Dental Basic or Dental

Dental Basic: Covers 80% of the costs for minor dental repairs up to a maximum of CHF 2,000 per calendar year in the event of illness or accident. This amount includes a maximum of CHF 100 towards check-ups (preventive treatments).

Dental: Covers 80% of the costs for dental treatment and orthodontics up to a maximum of CHF 5,000 per calendar year in the event of illness or accident.

sanitas

Your basic insurance covers only a few illness or accident-related dental treatments. It doesn't cover orthodontic treatment, oral surgery, preventive treatments or repairs for dental damage. The following supplementary insurance plans supplement mandatory basic insurance.

Dental Basic

The no-frills Dental Basic supplementary insurance plan covers minor dental repairs and preventive treatments. It is suitable for adults who value regular dental care. For example, should you ever need root canal treatment, a crown or dental prosthetic work, this plan will ease the financial burden.

Dental

This supplementary insurance plan protects you against the high costs that children and young people can incur for dental treatment and orthodontics. For example, dental braces can cost up to CHF 15,000 and wisdom tooth extraction can cost between CHF 500 and CHF 800 per tooth.

Comparison of benefits

Benefits	Dental repairs and preventive treatments Dental Basic	Dental treatment and orthodontics Dental
Dental treatment	Restorative dental treatments such as fillings (composite, gold, ceramic) and root canal treatment, wisdom tooth extraction, veneers, periodontal treatments, dental prosthetic work (bridges, crowns, pins, etc.)	Restorative dental treatments such as fillings (composite, gold, ceramic) and root canal treatment, wisdom tooth extraction, veneers, periodontal treatments, dental prosthetic work (bridges, crowns, pins, etc.)
