Hospital Private

Supplementary insurance
for a single room in the private ward
of any acute hospital in Switzerland

**January 2004
edition**
2018 version

sanitas

Purpose and basis

Hospital Private pays the additional costs of inpatient hospitalisation and treatment for a single room in the private ward of acute hospitals in Switzerland. Further benefits are detailed in these supplementary terms. The insurance pays costs that exceed the benefits paid under mandatory basic health insurance pursuant to the Swiss Federal Health Insurance Act (KVG/LAMal) and other social insurance plans pursuant to point 2 of the general terms of insurance.

Cover for the risk of accident can be included.

Services in the event of illness and accident abroad are covered via Sanitas Assistance. The insured can use these services even if the risk of accident is not covered. The appended terms are an integral part of these supplementary terms.

The basis of these supplementary terms is the January 2004 edition of the general terms of insurance for supplementary insurance plans pursuant to the Swiss Federal Act on Insurance Contracts (VVG/LCA).

Benefits

1 Definitions

- 1 Acute hospitals are defined as treatment facilities and clinics that are directed and overseen by medical doctors and admit only persons who have had an accident or have fallen acutely ill. For the present purposes, acute hospitals also include maternity, psychiatric and rehabilitation clinics.
